

Introducing

DEDICATED
by I.W.S.A.

WANT MORE FROM YOUR X-CART GOLD HOSTING?

Introducing **X-Dedicated** - an exciting new level of hosting, exclusive to X-Cart hosting clients. We now offer a dedicated server option, where only X-Cart sites will be hosted

So what does it mean for your business?

- **LOAD TIMES** :: **Faster sites result in more sales** - especially when customers start the checkout process which runs entirely on PHP pages

More than half page load times with our new X-Dedicated hosting - ALL pages of your site will load in seconds, all the time! This means both PHP and HTML pages.
- **SHARING** :: Share a server setup exclusively for X-Cart rather than being part of a shared hosting environment with 1000's of other sites.
- **CONFIGURATION** :: The server is custom configured to suit the ideal operational needs of X-Cart Gold.
- **SHOPPER SECURITY** :: Shared SSL for exclusive use to X-Dedicated hosting clients (registration and checkout pages can therefore be encrypted as always) or simply move your current certificate with your site to our server. Alternately for a small additional fee per annum, you can get your own dedicated security certificate for your site.
- **SERVER UPTIME** :: 99.9% uptime guarantee including SLA
- **SERVER SECURITY** :: We ensure to maintain the servers to be at an optimal level including routine security updates and patches.
- **SUPPORT, BACKUP & REDUNDANCY** :: Hosted in a world class datacenter based in Sydney for superior service and support, 24/7 technical assistance is only ever a phone call away (this is specialised technical support service for dedicated servers only). Raided server and regular backups means complete redundancy in event of system failure - the server simply switches over to mirrored drive or backup is used.
- **KNOWLEDGE/EXPERIENCE** :: Having worked with X-Cart software for over 5 years, we have the knowledge and experience required to look after your online business.

- **MAIL** :: Independent email hosting management panel provided, in conjunction with access to webmail. We DO NOT run your mail through the same server that your cart runs on in order to guarantee continued server stability and security.

What will it cost you?

We are offering three levels of X-Dedicated hosting - the only difference in the levels is the number of POP email accounts offered.

X-DEDICATED <i>Economy</i>	X-DEDICATED <i>Business</i>	X-DEDICATED <i>Enterprise</i>
<ul style="list-style-type: none"> • 2 GB webspace • 5 GB data transfer* • 5 x 100mb POPs • Aliases/Catchall • Webmail • Anti-Virus • Anti-Spam • Webstats • Databasing • Scripting • Shared SSL • Unlimited phone & email support 	<ul style="list-style-type: none"> • 2 GB webspace • 5 GB data transfer* • 25 x 100mb POPs • Aliases/Catchall • Webmail • Anti-Virus • Anti-Spam • Webstats • Databasing • Scripting • Shared SSL • Unlimited phone & email support 	<ul style="list-style-type: none"> • 2 GB webspace • 5 GB data transfer* • 100 x 100mb POPs • Aliases/Catchall • Webmail • Anti-Virus • Anti-Spam • Webstats • Databasing • Scripting • Shared SSL • Unlimited phone & email support
<p>\$59.95 per month</p>	<p>\$69.95 per month</p>	<p>\$79.95 per month</p>

* Per month allowance - excess data is charged at \$3.30 per Gig, or pre-paid 10G block \$30.00 per month.

EXISTING X-CART CLIENTS PLEASE NOTE

Given your existing X-Cart Gold site/s will need to be relocated from the shared server to the X-Cart dedicated server environment, a one-off fee of up to \$199.00 is payable per site (slightly more if security & MySQL/PHP patching is required), in conjunction with hosting costs. Once moved, you will commence a new hosting period.

NOTE: Hosting is invoiced quarterly or annually. If you are using a dedicated SSL certificate, an additional \$5.50 per month is applicable in addition to hosting costs.

The packages above can also be tailored to your more specific needs, should you require additional webspace and/or bandwidth.
